

TIOCOAT +

REFLECTIVE WHITE ROOF SYSTEMS

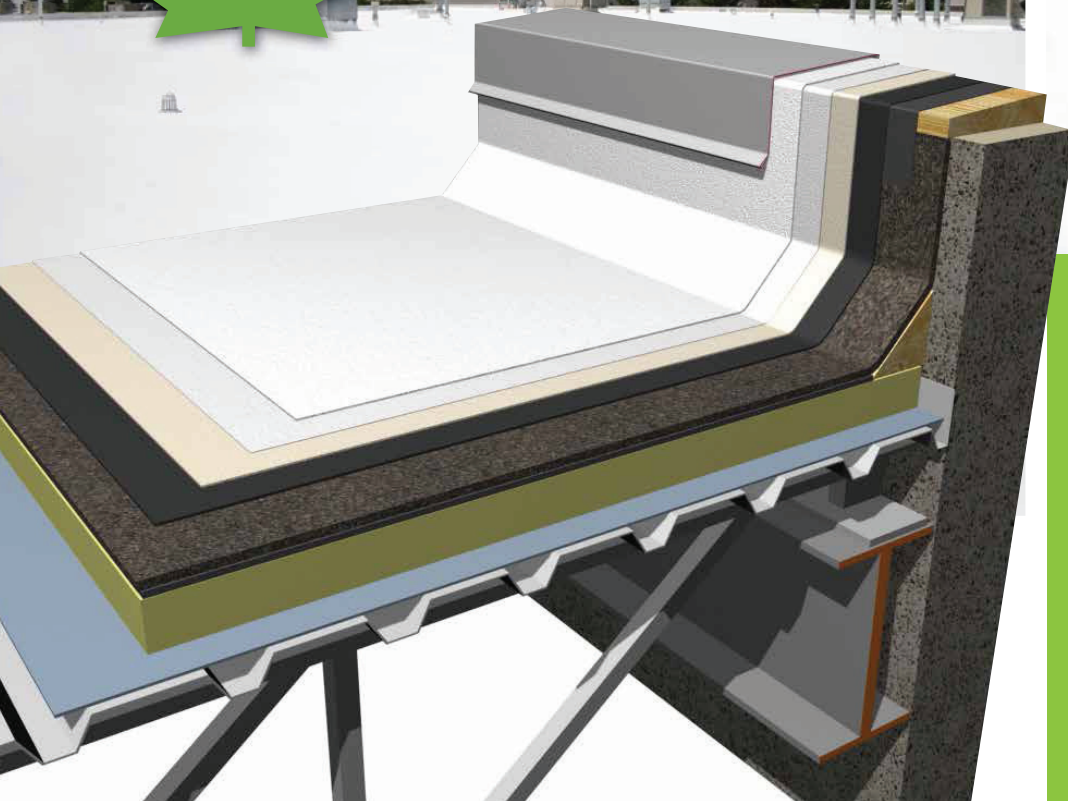

RUBBERROCK

SUPERIOR ROOF WATERPROOFING

IDEAL FOR EXISTING FLAT ROOFS!

TIOCOAT REFLECTS 89% OF THE SUN'S UV RAYS & SUPER CHARGES SOLAR PANELS!

made in
CANADA

Working together over both new and existing roof systems to provide a seamless, monolithic, waterproof system.

RubberROCK, provides the strength and performance that you demand from a waterproofing product, while TIOCOAT provides the reflective barrier that will further extend and protect the roof system it covers.

REFLECTIVE WHITE ROOF SYSTEMS

RUBBERROCK

SUPERIOR ROOF WATERPROOFING

Working together over both new and existing roof systems to provide a seamless, monolithic, waterproof system.

Advantages & Benefits of using **RUBBERROCK**

- Highly flexible (over 900% elongation with memory)
- Watertight
- Very resilient
- Provides a seamless membrane
- Spray applied
- No smell
- Cost effective
- Works hand in hand with our TIOCOAT: White reflective roof coating

Advantages & Benefits of using **TIOCOAT**

- Can be applied to many suitable existing roof substrates including: BUR, Mod-bit, EPDM, Metal, Concrete and Asphalt.
- Reflects 89% of the sun's UV rays.
- Made to withstand extreme climate changes.
- Significantly extends the life of the roof.
- Reduces "Heat Island Effect".
- Keeps homes/buildings cooler in hot summer months.
- Cuts air conditioning costs by 20-30%.
- Water based product. No harmful chemicals (GREEN).
- Manufactured by a reputable Canadian family business.
- Increases efficiency of solar panels by reflecting UV rays.
- LEED credit 7.2 (reduction of the Heat Island Effect).
- Energy Star certified product.
